GENERAL OR LIGHT CLEANING

- 1) Brush off any loose dirt.
- 2) Prepare a cleaning solution of 2 ounces (1/4 cup) mild soap per gallon of lukewarm water (less than 100 degrees f/ 38 degrees c).
- 3) Allow cleaning solution to soak into fabric.
- 4) Use a sponge or a soft bristle brush to clean.
- 5) Rinse thoroughly to remove all soap residue.
- 6) Allow fabric to air dry.

Polyester Prints: Use caution when cleaning as prints may bleed.
Solution-Dyed Acrylics: For stubborn spots on solution-dyed acrylic fabrics only, 1 cup bleach may be added to cleaning solution.

*Fabric number has changed from the 2010-11 season.
